**L**as Vegas style and comfort is coming to coastal Bulgaria in summer 2012. A brand new villa that's going to raise the bar on luxury villas higher than what's presently available along the Bulgarian coast.

This villa will be your own palace in the sun. As you might expect, it's got space. Lots of it at 450 square metres. Walk into the shining atrium with its classical columns and ornate staircase and you're going to drop your bags and say, Wow!

It's got 5 double or twin bedrooms (sleeps up to 10), all superbly furnished and featuring some of the Vegas icons, with en-suite bathrooms with luxury

baths or showers. Each bedroom has its own balcony. To the front on the first floor, there's a large sun deck with great views.

The open plan living area on lower, ground floor isn't just a sofa and dining table affair. It's a real recreational space, with massive TV and amazing lighting and décor, and a funky modern kitchen bar zone. This area opens out onto the truly impressive pool area which is really great for al fresco living and is likely to be your favourite place.

As you stand leaning on the stone rail, admiring the views, the shimmering waters of the superb swimming pool will attract your eye. There are

spacious patio areas and plenty of lovely spots to sunbath in the large garden that has been beautifully landscaped. Needless to say, the villa is fully equipped for holiday use. Just bring your swimming costume, sun tan lotion and leave your daily life behind. And live life the Vegas way!

“It is almost unreal how great the holiday was. The Villa Vegas is situated in a very quite area where you can spend quality time with your family and friends. The bedrooms were huge and state of the art equipped.”
